

Webinar Schedule 2022		
S No	Welding	Date
1	Welding of stainless steels	22/01/2022
2	Weld Repair	11/03/2022
3	Appreciation course on basic Metallurgy	16/04/2022
4	Repair and maintenance welding	27/05/2022
5	Welding for non-welding personnel	24/06/2022
6	Welding technology for coded fabrications	29/07/2022
7	Welding costs and economics	26/08/2022
8	Welding of steel castings	09/09/2022
9	Welding defects and Remedies	14/10/2022
10	Testing of weldments	11/11/2022
11	Welding of C-Mn Steels	09/12/2022

S No	Painting and Coating	Date
1	Coating Technology	18/03/2022
2	Specification, Procedure, Quality Plan and Report Writing	22/04/2022
3	Inspection and Testing	20/05/2022
4	Surface Preparation and Application Process	22/07/2022
5	Coating Technology	19/08/2022
6	Surface Preparation and Application Process	16/09/2022
7	Specification, Procedure, Quality Plan and Report Writing	21/10/2022
8	Inspection and Testing	18/11/2022

S No	Conventional and Advanced NDT	Date
1	AUT on pipeline girth welds	29/01/2022
2	Regaining lost capacity of aging boiler components by performance evaluation and residual life assessment: an exciting challenge for NDE	19/03/2022
3	NDT for QA& QC Engineers	16/04/2022
4	Overview about Phased Array Inspection on Boiler tubes (Various stages)-To assess the quality of weld joints for enhancing the efficiency of the Boiler.	14/05/2022
5	PAUT Inspection on weldment- Defect detection with images and Sizing methodologies in-line with Applicable codes and standards.	11/06/2022
6	NDT for Managers	16/07/2022
7	NDT for Welding inspection	13/08/2022
8	FMC/TFM – Introduction and phenomenon to enhance the sizing approach for weld examination.	09-10-2022
9	Significance of Electromagnetic Techniques for defect detection and evaluation- Oil & gas and Power sector	15/10/2022
10	Techniques for Inspecting Ferrous/ Non-Ferrous tubes- IRIS/ECT/RFT	11-12-2022
11	AUT on pipeline girth welds	12-10-2022
