

CSWIP MAGNETIC PARTICLE TESTING (MT)

Is it for me?

The course is suitable for all NDT personnel, inspectors and technicians engaged in or responsible for weld inspection, inspection of castings and forgings during fabrication or in-service inspection.

What will I learn?

This course will teach you about the principles of magnetism, magnetic fields, induction, permeability and reluctance, and magnetisation. You will also learn about lines of force, methods of testing, interpretation of indications, demagnetisation, practical exercises, methods of assessing sensitivity, and instruction writing.

During the Level 2 instruction writing and application, attendees requiring only Level 1 training will carry out practical applications to written instructions.

Training is in accordance with the requirements of BS EN ISO 9712 and the course ends with the certification examination.

TRAINING SCHEDULE 2024

- 26 FEB - 1 MAR 2024 (UAE)
- 24-28 JUN 2024 (UAE)
- 28 OCT - 1 NOV 2024 (UAE)

What will I leave with?

By the end of the course, you should be able to:

- Explain the basic principles of magnetic particle inspection methods
- Carry out magnetic particle inspection
- Write clear and concise inspection instructions and test reports
- Meet syllabus requirements for CSWIP Level 2

What else should I know?

ENTRY REQUIREMENTS

No mandatory course entry requirements.

TRAINING REQUIREMENTS:

The minimum required duration of training, which includes both theoretical and practical elements, is:

- Level 1 - 16 hours
- Level 2 - 24 hours (Direct Level 2 - 40 hours)

The training hours requirement is fulfilled when candidates attend one of TWI's training courses.

CERTIFICATION REQUIREMENTS:

The minimum duration for experience prior to or following success in the qualification examination is:

- Level 1 - 1 month
- Level 2 - 3 months (Direct Level 2 - 4 months)

Certification will be issued on successful completion of the examination and the required experience is achieved.
