The South East Asia Skills Enhancement Programme is part of the International Skills Enhancement Programme – a knowledge transfer initiative managed by TWI.

Lloyd's Register
Foundation

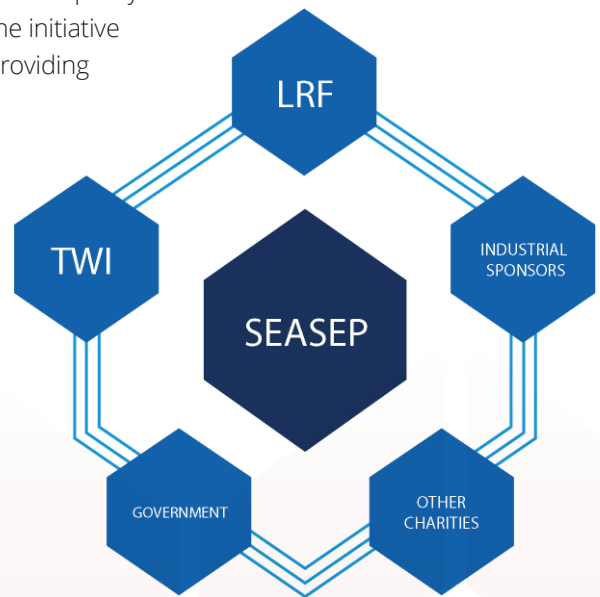

UPSKILLING IN WELDING, INSPECTION, AND ENGINEERING TO IMPROVE SAFETY

In 2018, TWI and the Lloyd's Register Foundation (LRF), a leading UK-based charity that supports activities relating to the safety of life and property across the globe, launched an international vocational training initiative with the aim of making a significant contribution to the reduction of high rates of accidental workplace fatalities in South East Asian countries.

SEASEP has created a sustainable programme that builds capability and capacity to safely operate and maintain critical infrastructure. Phase one of the initiative proved successful in enhancement of the skills of the workforce by providing access to quality, engineering related training and education.

The extension of phase two of SEASEP is a further exciting opportunity to deliver a programme with international impact, tackle in-country skills shortages, and reduce occupational fatalities by bringing engineering related skills and education to disadvantaged and under-represented groups in new territories across Thailand and the Philippines besides Indonesia and India.

SUPPORT WITH COURSE FEES

SEASEP provides financial assistance – Partial Bursaries/Subsidies for those wishing to pursue a career in Welding, Nondestructive Testing (NDT), Occupational Health and Safety (HSE), and Blasting and Painting. Any remaining course fees should be paid by:

- The Individual
- Their Employer
- Government Schemes (eg. apprenticeships)
- Other national or international charities

Training is suitable for individuals seeking to gain employment through upskilling or furthering their careers in their current employment. **Female candidates are strongly encouraged to apply.**

Bursaries/subsidies are awarded to candidates who meet the training course entry requirements.

CURRENT COURSE OFFERED IN INDONESIA

Training will be delivered to international standards through a specially selected portfolio of courses that will directly enhance the skills and knowledge of in-country workforces, increasing technical capacity and capability leading to more safe operators working in industry:

- IOSH Working Safely
- IOSH Managing Safely
- Penetrant Testing Level 1 (PT 1)
- Magnetic Particles Testing Level 2 (MT 2)
- Penetrant Testing Level 2 (PT 2)
- Magnetic Particles Testing Level 2 (MT 2)
- Ultrasonic Testing Thickness Measurement (UTTM)
- Ultrasonic Testing Level 2 (UT 2)
- Radiographic Film Interpretation (RI)
- Visual Welding Inspector (3.0)
- BGAS Painting Inspector Grade 2
- BGAS Site Coating
- Visual Testing
