We are delighted to bring you the NSIRC Annual Conference as an online experience this year, which means that we can continue to provide you with access to over 30 PhD research presentations brought to you by our keynote speakers. NSIRC 2020 Live will be broadcast on Thursday 23 July 2020 and the PhD students’ presentations will highlight the world-leading engineering research they are producing on additive manufacturing, composites and polymers, and structural integrity, amongst others.

The agenda will include live Q&A-interactive sessions with the students, along with three keynote speakers.
