

Welding and Joining Processes Technical Group Meeting: Welding and Repair of High Temperature Plant

Thursday 24 February 2022

Online

13.30	Introduction and Welcome	<i>Gene Mathers Chair, Welding and Joining Processes Technical Group</i>
13.40	Electro Slag Cladding – past, present and future	<i>Mark Golding Director Mark Golding Consultants Ltd</i>
14.10	Orbital Welding of High Pressure Pipework	<i>Stephan Marre Industry Segment Manager Oil&Gas Processing / CPE Lincoln Electric</i>
14.40	Welding Consumables for Creep Resistant Steels	<i>Ronny Krein Global Application Engineer Voestalpine Bohler</i>
15.10	Additive Manufacture of High Temperature Materials	<i>Emily Davison Project Leader - Laser Additive Manufacturing TWI Ltd</i>
15.40	Perspective on minimum post weld heat treatment temperature for grade 91 steel	<i>John Siefert Program Manager, Materials and Repair (P229) EPRI</i>
16.10	Group Discussion	<i>ALL</i>
16.30	Event Close
